FRENCH

ABOUT ME

Passionate software developer with hands-on experience from my internship at the National Information Technology Board (NITB) and a significant university project that earned me 3rd place in our final year competition. I excel in both front-end and back-end development, using tools like HTML, CSS, Bootstrap, React.js, Material UI, Redux Node.js, and Express.js to create sleek and functional web apps and websites. I thrive in collaborative environments and enjoy sports such as cricket and football

WORK EXPERIENCE

National Information Technology Board

2022-2022

Islamabad, Pakistan

- 2-week internship at NITB. Helped me improve my frontend skills in HTML CSS.
